New Business:

Scott Becker:

Scott shared the results of his elevation findings regarding the flood plain areas in Colton. He said that the main streams are fairly accurate, but that the minor stream's accuracy is suspect and he felt that the town could argue that FEMA needs to reanalyze those. It was discussed that maybe the town council could set up a separate meeting with FEMA to come to a council meeting to discuss this further.

Meeting with Keller and Associates:

There will be a meeting with Keller and Associates on Thursday, February 6th at 1:30 to get an update on design which should be at 90% completion.

Ongoing Business:

TIB Grant:

Jenni told the council that she spoke with Stillman at Keller and Associates and he found that TIB is requesting a cultural survey before the town can put in the pedestrian crossing light. Stillman said that that did not make sense and that he would contact TIB to find out if this was actually necessary. Jenni called WSDOT and left a message to find out if they would be able to install this device. She will update the council when she hears back from them.

9	was made by Sam Keller and seconded by Scott Miller and passed by all. The meeting closed at 8:09 p.m.
